

# Controlled Vocabulary - Configuration

# Subject Classification DDC is

Implemented using  
Controlled Vocabulary

## Authors / Creator:

Enter the names of the author(s)

Last name, e.g. Smith

## Date of Issue:

Please give the date of publication and/or month if they aren't

Year Month

## Publisher:

Enter the name of the publisher

## Identifiers:

If the item has any identifiers and the actual numbers or

ISSN

## Subject Keywords:

Enter appropriate subject keywords

[Subject Categories](#)

## Abstract:

Enter the abstract of the item

[< Previous](#)

[Save & Exit](#)

## Subject Categories

### Filter subjects:

#### DEWEY DECIMAL CLASSIFICATION

##### GENERALITIES

##### Generalities

##### Bibliography

##### Library and information sciences

##### Library relationships

##### Physical plant

##### personnel and positions

##### Empty

##### Library operations

##### Library for specific subject

##### General Libraries

##### Reading and use information media

##### empty

##### General encyclopedic works

##### Empty

##### General serial publication

##### General organization and museology

##### journalism, publishing, newspapers

##### General collections

##### Manuscripts and book rarities

#### PHILOSOPHY AND RELATED DISCIPLINES

#### RELIGION

#### SOCIAL SCIENCE

#### LANGUAGE

#### PURE SCIENCES

#### TECHNOLOGY (APPLIED SCIENCE)

#### LITERATURE (Belle-lettres)

#### GENERAL GEOGRAPHY AND HISTORY

# DDC Implementation Steps

1. Download ddcE.xml file from web site to the path /home/dspace/dspace\_inst/config/controlled-vocabularies
2. edit /home/dspace/dspace\_inst/config/dspace.cfg File  
choices.plugin.dc.subject = srsc to ddcE
3. edit /home/dspace/dspace\_inst/input-forms.xml

<page number="2">

<field>

<dc-schema>dc</dc-schema>

<dc-element>subject</dc-element>

<dc-qualifier></dc-qualifier>

<!-- An input-type of twobox MUST be marked as repeatable -->

<repeatable>>true</repeatable>

<label>Subject Keywords</label>

<input-type>twobox</input-type>

<hint>Enter appropriate subject keywords or phrases. </hint>

<required></required>
